

NANDINI LOVANSHI

MERN STACK DEVELOPER

Indore, Madhya Pradesh, India | +91 6267643021 | lovanshinandini42@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience in developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in JavaScript, React Hooks, RESTful APIs, JWT authentication, Express.js, API integration, and responsive web development. Skilled in building scalable, user-friendly applications with clean, maintainable, and reusable code. Strong problem-solving abilities with a passion for continuous learning and contributing to high-quality software development in collaborative team environments.

PROFESSIONAL EXPERIENCE

Shanti InfoSoft LLP, Indore

September 2025 – February 2026

MERN Stack Developer Intern

- Developed and maintained full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js).
- Built responsive and user-friendly frontend interfaces using React.js, React Hooks, React Router, and Tailwind CSS.
- Developed and integrated RESTful APIs using Node.js and Express.js for efficient client-server communication.
- Implemented CRUD operations and integrated MongoDB using Mongoose for data management.
- Worked with JWT authentication and bcrypt for secure user authentication and password protection.
- Used Git and GitHub for version control and tested APIs using Postman to debug and improve application functionality.

PROJECTS

Blogify – MERN Stack Blogging Website

Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed a responsive blogging platform for creating, viewing, and managing fashion, beauty, and lifestyle blogs.
- Implemented blog listing, blog details, category navigation, search, and responsive UI using React.js and Tailwind CSS.
- Built reusable React components and integrated React Router for client-side navigation.
- Implemented backend APIs with Node.js and Express.js and managed blog data using MongoDB and Mongoose.

Task Manager (MERN Stack)

Technologies: React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt

- Developed a full-stack Task Management application using the MERN stack with secure user authentication and task management functionality.
- Implemented JWT-based authentication and bcrypt for secure password hashing and user authorization.
- Designed RESTful APIs and implemented complete CRUD operations for task management.
- Developed protected routes using authentication middleware and integrated the React frontend with Express.js and MongoDB.
- Implemented task search, status filtering, task update, delete, and dashboard statistics for improved usability.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, React Hooks, React Router, Tailwind CSS, Responsive Web Design, State Management

Backend: Node.js, Express.js, RESTful APIs

Database: MongoDB, Mongoose

Authentication: JWT Authentication

Tools & Platforms: Git, GitHub, VS Code, Postman, MongoDB Compass, Vercel, Render

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

Rajiv Gandhi Proudlyogiki Vishwavidyalaya (RGPV) | CGPA: 8.53

Bachelor of Computer Applications (BCA)

2020 – 2023

Devi Ahilya Vishwavidyalaya (DAVV) | Percentage: 67.29%

CERTIFICATIONS

React.js | JavaScript (ES6+) | MERN Stack Development
